Dear Sean,

"Outstanding!" "Amazing!" "The best Ohio Night I've ever attended!" Those are just a few of the comments I received from both Legislative members and attendees at Ohio Night during the ALEC event.

I can't say thank you enough for making our trip out to San Diego for the ALEC conference such a success. Thank you also to Sean P. Dunn & Associates, LLP for their generous contribution and sponsorship of the Ohio Night event! Because of your help and others like you, the trip to ALEC was made possible for our legislators.

The many speakers heard and information that my members receive at the ALEC Annual Meeting will be invaluable in leading them towards business, tax and government policy with the Jeffersonian principles that ALEC espouses. With information that is disseminated at these meetings, my desire is that the Ohio Legislature will pass and repeal laws to make Ohio a much more business friendly state. After all, when your business is a success, it benefits all of Ohio.

Thank you,

John Adams

Business is the foundation of a successful state. Without you, our citizens don't have jobs, our families struggle and our state struggles. But to have successful businesses, we must have good fiscal, tax and state regulatory policies.

Some of those best policies are hashed out at the American Legislative Exchange Council's three meetings throughout the year. It is important that our state legislators be exposed to the foundational Jeffersonian beliefs that are espoused at ALEC. After obtaining the model legislation (which is created in a joint effort with private/public sector members) they can then come back to Ohio and work on implementing those recommendations of lower taxes and less government regulation.

But without your generous contribution to our Ohio ALEC Scholarship Fund, it would be impossible to send our legislators to these ALEC meetings. So for that, I thank you for your donation! Because of you, our legislators will have the facts behind them to implement legislation that will assist your business to succeed.

Thank you,

John Adams
